

to fully include veterans in all the programs, purposes and activities of the agency.

SECTION 702. OFFICE OF ADVOCACY.

Requires the Chief Counsel for Advocacy of the US Small Business Administration to include an evaluation of the efforts of the federal government to assist veteran owned small business concerns as one of his primary functions. The Chief Counsel is also required to provide statistical information on veterans utilization of federal programs. Also requires the Chief Counsel to make recommendations to the Administrator of the SBA and Congress on programs and efforts to assist veteran owned small business concerns.

SECTION 703. FIXED ASSET SMALL BUSINESS LOANS.

Requires the Government Accounting Office to conduct a study of the feasibility of using the VA home ownership loan program as a source of fixed asset financing for veteran-owned small businesses.

PERSONAL EXPLANATION

HON. DAN MILLER

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 9, 1999

Mr. MILLER of Florida. Mr. Speaker, I rise today to insert in the RECORD that I inadvertently voted "yes" on rollcall 392 on September 8, 1999. I intended to vote "no" on this Roemer amendment to H.R. 2684 to stop funding for the international space station.

I believe this is an important NASA project. I have supported the space station in the past and have voted against Mr. ROEMER's previous amendments to kill the space station.

IN HONOR OF THE LATE MAX KLEIN

HON. PETER DEUTSCH

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 9, 1999

Mr. DEUTSCH. Mr. Speaker, I rise today to honor the memory of Max Klein, a volunteer and community leader who will be greatly missed by the South Florida community.

After spending a large portion of his life in New York as a highly successful newsreel editor, Max Klein and his wife Anne retired to South Florida where they took up residence in Lauderhill. Max soon plunged himself into the community in the hopes of improving the lives of his new neighbors and friends. Attending local government meetings on a regular basis, Max became totally immersed in the South Florida community. He contributed his time to various political campaigns and judicial battles, for Max truly believed that one man could make a difference. He was undoubtedly successful at getting his voice heard on all levels of government. As Commissioner Ilene Lieberman, former Mayor of Lauderhill and current County Commission Chairwoman, recently noted, "Max was a very special person. . . . He definitely made a difference in the community."

In addition to his outstanding activism, Max Klein distinguished himself through his extraor-

dinary devotion to volunteerism. Soon after moving to Lauderhill, Max became involved at his local library, teaching gifted children how to write creatively. This involvement soon led him to become involved with the Pompano Beach Middle School as well. In honor of this tremendous devotion to volunteerism, Max was elected to the Dr. Nan S. Hutchison Broward Senior Hall of Fame.

In summary, Max's extraordinary devotion to the community around him is truly a rarity in this age, and he will be sorely missed by the Lauderhill community, as well as by the South Florida community at large. Max Klein was an extraordinary human being who went above and beyond what he needed to be, because of his sincere desire to help his fellow man. We will all miss Max, but we are lucky to have so many memories of his life and work.

IN HONOR OF NORTHEAST OHIO'S DESIGNATION AS THE 74TH CLEAN CITIES REGION

HON. DENNIS J. KUCINICH

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 9, 1999

Mr. KUCINICH. Mr. Speaker, I rise today to recognize Northeast Ohio's designation as the 74th Clean Cities region under the U.S. Department of Energy's Clean Cities Program.

Clean Cities is a national partnership formed to increase the use of clean-running alternative fuel vehicles. The Northeast Ohio Clean Cities designation encompasses Cuyahoga, Lorain, Medina, Summit, Portage, Geauga, Lake, and Ashtabula Counties in Northeast Ohio. The Northeast Ohio Clean Cities program is driven by The Northeast Ohio Clean Fuels Coalition, a group of dedicated people and organizations led by the Earth Day Coalition, a long-time leader in environmental protection for Northeast Ohio.

On Tuesday, September 14, 1999, U.S. Energy Secretary Bill Richardson will formally designate Northeast Ohio as the 74th Clean Cities region in a ceremony to be held at the Great Lakes Science Center on Cleveland's Waterfront. The Northeast Ohio region joins other partners recognized by the U.S. Department of Energy, including Pittsburgh, Cincinnati, and Chicago.

Northeast Ohio, a region historically known as a pioneer in the automobile industry, has more recently become a leader in the production and use of electric and alternative fuel vehicles. The Greater Cleveland Regional Transit Authority helped pioneer the use of alternative fuels in its fleet. Northeast Ohio is home to the NASA Glenn Research Center, an organization pioneering the future of hybrid engine technologies. Furthermore, the Northeast Ohio Clean Fuels Coalition was formed to promote alternative fueling stations and alternative fuel vehicles to regionally facilitate the development of a nationally viable alternative fuels industry. Achieving Clean Cities is a significant next phase in Northeast Ohio's commitment to alternative fuels and alternative fuel vehicles. This designation is an important step to achieving more local awareness and acceptance of alternative fuel vehicles that will,

in turn, draw greater support for legislation that will enhance the alternative fuels marketplace.

As the 74th Clean Cities region, the Northeast Ohio Clean Fuels Coalition will seek to facilitate alternative fuel vehicle production, conversion, and use, expand fueling availability, create new jobs and commercial opportunities, advance objectives outlined in the Clean Air Act Amendments of 1990 and the Energy Policy Act of 1992, increase public awareness of alternative fuel benefits, and provide greater fuel choices in the Northeast Ohio area.

I am pleased to welcome Secretary Richardson to the Northeast Ohio area where I am certain he will be impressed by the commitment of the dedicated individuals who are working to make Greater Cleveland a more environmentally and economically sustainable place to live and work. It is an honor to recognize the Department of Energy's Clean Cities program and the Northeast Ohio Clean Fuels Coalition on the floor of the U.S. House of Representatives.

IN TRIBUTE TO DR. ALEXANDER GONZALEZ, PRESIDENT OF CALIFORNIA STATE UNIVERSITY SAN MARCOS

HON. RANDY "DUKE" CUNNINGHAM

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Thursday, September 9, 1999

Mr. CUNNINGHAM. Mr. Speaker, I was honored on Sept. 1, 1999, to take part in the first inauguration ceremony of the California State University San Marcos, and to listen closely to the remarks of its energetic President Alexander Gonzalez.

The CSUSM campus represents a way station on the road to the American Dream for thousands of people of North San Diego County today and for tens and hundreds of thousands of people in Southern California tomorrow. While San Marcos until recently could claim to be the newest Cal State campus, like the community where it is located, it is growing and maturing. And now, in its tenth anniversary year, Cal State San Marcos is the sole four-year public university in one of the most rapidly growing regions of the country. And it is North County's only federal depository library.

And it is becoming truly great.

You can see its new greatness with new buildings arising on campus, new housing in the works, and a new outdoor facility for track and field. Even the long-overdue replacement of the Twin Oaks Valley Road interchange is under way, serving this campus and the surrounding community.

But its true greatness is more difficult to view on first glance. It is less evident in its buildings than in its people—in the legacies established by the late State Senator Bill Craven and its first president Bill Stacy, and in the person of its current President, Alexander Gonzalez.

Cal State San Marcos is on the front lines of training a new generation of quality teachers for our schools. It is instructing this generation and the next about the tremendous
